Roll No.

XCS-401/XCS-400(A)

B. TECH. (FOURTH SEMESTER)

MID SEMESTER

EXAMINATION, March, 2024

(All Branches)

CAREER SKILLS

Time : 1½ Hours

Maximum Marks : 50

Instructions for students :

1. This question paper has 50 questions. Attempt all questions.
2. Each question carries equal marks.
3. It is compulsory to write the SET on the OMR.
4. Use of calculator is not allowed.
5. There is no negative marking.

P. T. O.

Set-A

Directions (Q. Nos. 1-10) : In the first part of each question, a certain relationship is given between two words. Choose the word from the given options which has the same relationship with the word in the second part of the question.

1. Reverence : Admiration :: Viable : ?

- (a) Active
- (b) Hopeless
- (c) Feasible
- (d) Useful

2. Dog : Kennel :: Convict : ?

- (a) Prison
- (b) Hive
- (c) Rehabilitation
- (d) Den

3. Crow : Caw :: Bells : ?

- (a) Chime
- (b) Rustle
- (c) Roar
- (d) Ring

4. Misogamy : Marriage :: Misogyny : ?

- (a) Children
- (b) Husband
- (c) Relation
- (d) Women

5. Pulp : Paper :: Hemp : ?

- (a) Cotton
- (b) Rope
- (c) Nylon
- (d) Yarn

6. Ecology : Environment :: Histology : ?

- (a) Fossils
- (b) History
- (c) Tissues
- (d) Hormones

7. Ornithologist : Birds :: Anthropologist : ?

- (a) Plants
- (b) Animals
- (c) Mankind
- (d) Environment

P. T. O.

8. Pituitary : Brain :: Thymus : ?

- (a) Larynx
- (b) Spinal Cord
- (c) Throat
- (d) Chest

9. Matricide : Mother :: Homicide : ?

- (a) Human
- (b) Children
- (c) Father
- (d) Apes

10. Anaemia : Blood :: Anarchy : ?

- (a) Lawlessness
- (b) Government
- (c) Monarchy
- (d) Disorder

Directions (Q. Nos. 11-15) : Read the passage carefully and answer the questions that follow :

So what exactly do we mean when we say “environmental markets” and how are these markets going to impact the business landscape ? First, the basics : Anytime a unit of exchange arises from an underlying activity that is perceived

to benefit the environment by either the buyer of that unit or the governing body that created the units of exchange, the main ingredients of an environmental market are present. In a cap-and-trade system, the governing body places a cap on the total amount of air or water pollution that may be emitted by issuing an equivalent number of allowances, denominated in units of pollution. These allowances may be issued by the government to the business entities that are regulated by the program in amounts similar to their expected production, to lessen the economic impact, or those entities may have to purchase the allowances from the government in an auction. At the end of each specified period, usually a year, the business entities will have to surrender a number of allowances, or permits, equal to their generation of pollution during the period. As the governing entity reduces the supply of allowances available to the market in each subsequent year, the price will go up unless the regulated businesses invest in technologies that will reduce their pollution per unit of output, thereby reducing their demand and

P. T. O.

(6) XCS-401/XCS-400(A)

the overall market demand for allowances. Environmental markets that are not set up as cap-and-trade markets in the US include the state-level markets for renewable energy credits, which are granted to producers of renewable energy and given value because utilities must purchase an amount of these credits determined by the state, and the voluntary market for greenhouse gas emissions, in which credits arising from a unit of greenhouse gas emissions avoided are granted to owners of qualifying project activities by accredited third-party verifiers and sold to voluntary buyers, primarily to conform with the buyer's goal of becoming "carbon neutral." Companies can claim to be carbon neutral if they purchase an amount of these credits for avoided greenhouse gas emissions equivalent to the total amount of emissions they produce. This is increasingly important from a public relations and corporate responsibility perspective in the United States, even in the absence of federal legislation governing greenhouse gas emissions.

(7) XCS-401/XCS-400(A)

11. When the author uses the word allowances, he is referring to :
- (a) the amount of pollution an entity is permitted to emit.
 - (b) the funds a business must set aside to pay for pollution cleanup.
 - (c) the total government penalty issued to those companies that pollute the air and water.
 - (d) the economic impact of the reduction of emissions in a given year.
12. The author believes that it is important for a company to become carbon neutral because :
- (I) The company will benefit from a good public image.
 - (II) The company will demonstrate its awareness of accountability.
 - (III) The company will be complying with government regulations.
- (a) I only
 - (b) II only
 - (c) I and II
 - (d) I and III

P. T. O.

13. The author of this passage most likely would agree that :

- (a) government regulations that control allowable greenhouse gas emissions are too stringent.
- (b) the US has a history of refusing to address environmental problems, a position that will adversely affect the growth of business in this country.
- (c) renewable resources in the United States are so abundant as to make regulations that govern their use superfluous.
- (d) in the future, more value will be placed on any activities that lessen the impact of development on natural systems.

14. Which of the following, if true, would most weaken the author's argument ?

- (a) Even those companies that invest in pollution-reducing technologies will see a substantial increase in their demand for allowances.

(b) Insufficient data exist, as of yet, to make conclusive claims about the efficacy of "green" programs in the corporate sector.

(c) Researchers attempting to quantify the less-tangible benefits of green construction believe investment in water technologies and a renewed interest in solar-energy innovation will reward Wall Street investors.

(d) A major US bank recently announced that its new building will employ a heat exchange system that will gather heat from groundwater and use it to help heat the building in the winter.

15. The author's attitude toward the companies that "claim to be carbon neutral" can best be described as :

- (a) skeptical of the validity of their claim in light of continued non-compliance with government regulations.

P. T. O.

(10) XCS-401/XCS-400(A)

- (b) indignant toward their refusal to change policy from abusive practices to voluntary compliance.
- (c) cautiously appreciative of their willingness to accept responsibility in the absence of government regulations.
- (d) totally detached and dismissive, as he rejects any arguments that run counter to his position.

Directions (Q. Nos. 16-20) : In each of following questions, four words have been given which three are alike in some way and one is different.

Find the odd one out :

- 16. (a) Quirk
 - (b) Peculiarity
 - (c) Oddity
 - (d) Normalcy
- 17. (a) Pathology
 - (b) Seismology
 - (c) Botany
 - (d) Misogyny

(11) XCS-401/XCS-400(A)

- 8. (a) Animosity
 - (b) Antagonism
 - (c) Hostility
 - (d) Amity
- 9. (a) Jammu & Kashmir
 - (b) Himachal Pradesh
 - (c) Istanbul
 - (d) Uttarakhand
- 10. (a) Lakshadweep
 - (b) Andaman and Nicobar
 - (c) Seychelles
 - (d) United States of America

Directions (Q. Nos. 21-25) : Arrange the given words in a meaningful sequence and thus find the correct answer from the options given :

- (i) Varanasi
 - (ii) Asia
 - (iii) Uttar Pradesh
 - (iv) Earth
 - (v) India
- (a) i, iii, v, ii, iv
 - (b) i, iv, iii, v, ii
 - (c) ii, iii, iv, v, i
 - (d) None of the above

P. T. O.

22. (i) Arrival
 (ii) Introduction
 (iii) Recommendation
 (iv) Presentation
 (a) i, ii, iv, iii
 (b) i, ii, iii, iv
 (c) ii, iii, iv, i
 (d) None of the above
23. (i) Plant
 (ii) Grain
 (iii) Bread
 (iv) Dough
 (a) i, ii, iv, iii
 (b) i, ii, iii, iv
 (c) ii, iii, iv, i
 (d) None of the above
24. (i) Boy
 (ii) Child
 (iii) Infant
 (iv) Adolescent
 (a) iii, i, ii, iv
 (b) iii, ii, i, iv
 (c) ii, iii, i, iv
 (d) None of the above

25. (i) Never
 (ii) Sometimes
 (iii) Generally
 (iv) Seldom
 (a) iii, ii, iv, i
 (b) i, ii, iii, iv
 (c) ii, i, iv, iii
 (d) None of the above

Directions (Q. Nos. 26-34) : In each of the questions below, few Statements are given followed by few Conclusions. You have to take the given Statements to be true even if they seem to be at variance from commonly known facts. Read all the Conclusions and then decide which of the given Conclusions logically follows from the given statements disregarding commonly known facts.

26. Statements :

Some rivers are jungles.
 Some jungles are horses.
 Some horses are tents.
 Some tents are buildings.

P. T. O.

(14) XCS-401/XCS-400(A)

Conclusions :

- (I) Some buildings are horses.
- (II) Some tents are jungles.
- (III) Some horses are rivers.
- (a) None follows
- (b) Only I follows
- (c) Only II follows
- (d) Only III follows

27. Statements :

Some chairs are tables.

All tables are desks.

No table is car.

Conclusions :

- (I) Some desks are not cars.
- (II) Some desks being car is a possibility.
- (a) None follows
- (b) Only I follows
- (c) Only II follows
- (d) Both I and II follow

(15) XCS-401/XCS-400(A)

28. Statements :

All boys are smart.

No boy is a girl.

All girls are beautiful.

Conclusions :

- (I) Some beautiful are not boys.
- (II) Some beautiful can be smart.
- (a) None follows
- (b) Only I follows
- (c) Only II follows
- (d) Both I and II follow

29. Statements :

Some seconds are minutes.

All minutes are hours.

Conclusions :

- (I) Some seconds are hours.
- (II) All seconds are hours.
- (a) None follows
- (b) Only I follows
- (c) Only II follows
- (d) Both I and II follow

P. T. O.

30. Statements :

All mangoes are bananas.

Some bananas are globe.

All globe are square.

Conclusions :

(I) Some mangoes are square.

(II) No mango is square.

(a) Either I or II follows

(b) Only I follows

(c) Only II follows

(d) Both I and II follow

31. Statements :

All points are views.

No view is an idea.

Some ideas are thoughts.

Conclusions :

(I) Some thoughts being points is a possibility.

(II) No view is a thought.

(a) Only I follows

(b) Only II follows

(c) Both follow

(d) None follows

32. Statements :

All cups are saucers.

All plates are cups.

Some saucers are spoons.

Conclusions :

(I) All plates being spoons is a possibility.

(II) All plates are not saucers.

(a) Neither I nor II follows

(b) Only I follows

(c) Either I or II follows

(d) Both I and II follow

33. Statements :

No cap is a shirt.

Some trousers are caps.

All belts are shirts.

Conclusions :

(I) No cap is a trouser.

(II) All caps being trousers is a possibility.

(a) Only I follows

(b) Only II follows

(c) Either I or II follows

(d) Neither I nor II follows

P. T. O.

34. Statements :

No crow is a bird.

Some parrots are crows.

No bird is a sparrow.

Conclusions :

(I) No crow is a sparrow.

(II) Some parrots are not birds.

(a) Only I follows

(b) Only II follows

(c) Either I or II follows

(d) Neither I nor II follows

35. In a clock displayed at a wall, the time displayed is 9 o'clock in the morning. Through how many degrees will the hour hand rotate when the clock shows 3 o'clock in the afternoon ?

(a) 120 degree

(b) 160 degree

(c) 180 degree

(d) 260 degree

36. How many minutes are lost by a clock per day, if its hands coincide every 54 minutes ?

(a) 35 (5/11) minutes

(b) 205 (5/11) minutes

(c) 305 (5/11) minutes

(d) 25 minutes

37. At what time between 6 a.m. and 6 : 25 a.m. will the hands of a clock be at right angles ?

(a) 14 minutes

(b) 16 (4/11) minutes

(c) 12 (7/11) minutes

(d) 15 minutes

38. At what time between 7 o'clock and 8 o'clock will the hands of a wall clock point in the same direction ?

(a) 38 (3/11) minutes past 7

(b) 35 (6/11) minutes past 7

(c) 38 (2/11) minutes past 7

(d) None of the above

P. T. O.

(20) XCS-401/XCS-400(A)

39. Between 4 o'clock and 5 o'clock in morning, at what time will the hands of a wall clock be in the same straight line but not overlapping each other ?

- (a) $54\frac{6}{11}$ minutes past 4
- (b) $54\frac{5}{11}$ minutes past 4
- (c) $54\frac{4}{11}$ minutes past 4
- (d) 54 minutes past 4

40. Vinit bought a new wall clock on Monday and set the correct time as 10 a.m. on it and fixed it on a wall. The same clock loses 15 minutes in 24 hours. What will be the true time if the clock indicates 4 a.m. on the following Sunday ?

- (a) 6 : 00 a.m.
- (b) 5 : 02 a.m.
- (c) 4 : 44 a.m.
- (d) 5 : 12 a.m.

(21) XCS-401/XCS-400(A)

41. Find the angle between minute and hour hand at 11 : 35 p.m. :

- (a) 120 degrees
- (b) 150 degrees
- (c) 137.5 degrees
- (d) None of the above

42. At what angle the hands of the clocks are inclined at 15 minutes past 5 ?

- (a) 67.5 degrees
- (b) 90 degrees
- (c) 67.75 degrees
- (d) None of the above

43. Monday falls on 20th March, 1995. What was the day of 3rd November, 1994 ?

- (a) Sunday
- (b) Tuesday
- (c) Thursday
- (d) Friday

P. T. O.

44. What was the day of the week on 28th February, 1995 ?

- (a) Monday
- (b) Tuesday
- (c) Wednesday
- (d) Thursday

45. The first Republic Day of India was celebrated on 26th January, 1950. It was :

- (a) Monday
- (b) Tuesday
- (c) Thursday
- (d) Friday

46. Number of times the hands of a clock are at right angle everyday is :

- (a) 22
- (b) 24
- (c) 42
- (d) 44

47. Which year will have the same calendar exactly as 2009 ?

- (a) 2010
- (b) 2013
- (c) 2015
- (d) 2017

48. Which year has the same calendar exactly as 2012 ?

- (a) 2018
- (b) 2020
- (c) 2024
- (d) None of the above

49. The last day of the century year can never be

- (a) Friday
- (b) Wednesday
- (c) Monday
- (d) Tuesday

50. Pinky was born on 29th Feb., 2016 which happened to be a Monday. If she lives to be till 2099, how many birthdays would she celebrate on a Monday ?

- (a) 1
- (b) 2
- (c) 3
- (d) 5
